

ANCIENT BATZ SAFETY

❖ Don't Go It Alone

- Bring a friend

❖ Headphones out

- Don't use them. It will block your ability to hear someone coming up behind you

❖ Be aware of your surroundings

- Don't be digging through a bag or pocket. Always pay attention

❖ Head on swivel

- Look around you. Don't be starring at your phone the whole time

- ❖ Bring a spare battery and cable for your phone
- ❖ If you have pepper spray, carry it.
- ❖ If you have a pocket knife, carry it.
- ❖ Carry your keys so that the keys are sticking between your fingers.

If something does happen, which please I hope does not. SCREAM. KICK. PUNCH. A lot of us have finger nails, go for the eyes.

As Gracie Hart taught us: SING

S: Solar Plexus

I: Instep

N: Nose

G: Groin

If you look like you are not paying attention to what is going on you are a bigger target. If you are looking around and paying attention to what is going on the bad people will move on.
